

#### **THE PRESENTERS:**

**Gus Kaufman, Jr., Ph.D.**, senior certified PBSP therapist, supervisor, trainer, Atlanta, GA., has taught PBSP around the U.S., Europe, and Israel. Currently conducts supervision groups and therapy using this method.

**Deborah Ann Wilbur, LCSW, BCD, CGP**, certified PBSP Therapist, has been in private practice in Winter Park, FL for 19 years, and has applied PBSP in the treatment of eating issues for ten years.

**Rick Kilmer, Ph.D.**, Program Director for the Atlanta Center For Eating Disorders. In practice as a therapist in Atlanta, GA for over 15 years.

**Harriet Wall, M.Ed., L.P.C.**, therapist in private practice in Roswell, GA., has used elements of PBSP in her work with addictions for years.

**Joel Rachelson, Ph.D.**, therapist in private practice in Atlanta, GA. Certified PBSP Therapist.

#### **About SEPS**

**(Southeastern Psycho motor Society)**  
Our goal is to support and expand the use of PBSP through gatherings, workshops, supervision groups, and training groups. It is our hope that you will join us in SEPS. We would like interested therapists to get involved so we can develop a supportive environment where we can take turns presenting mind/body applications and encourage each other to do presentations to the community at large.

Decatur, GA 30033  
\$20**

**LEARN**

- Theory and origins of PBSP
- PBSP development model
- How unmet needs show up in the body and behavior

Please join us for a daylong training in how to use Pessó Boyden System Psychomotor Therapy\* (PBSP) and exercises when working with addictions and eating disorders. PBSP is a powerful form of body-based therapy that follows the core energies of the client in order to restore balance and create new, lasting, constructive forms of behavior.

The workshop will be divided into two three-hour segments. The morning will focus on alcohol/drug addictions, and the afternoon session on strategies effective with eating disorders.

Presentations will be both didactic and experiential, with concrete tools any psychotherapist can use.

A pre-workshop orientation to PBSP is offered, for therapists who want more basic training in this modality, on the preceding Friday, October 10.

An in-house box lunch will be provided on Saturday so we can get to know each other and network.
