| c. Other comments: | none |

7. Expectations/Usefulness as it relates to the stated objectives:
- a. My expectations for this program were met... 4.7
 - b. This program was useful for my professional work 4.4
8. Self-Evaluation: I got a 'passing grade' for my participation/learning in this program: 4.5
9. Applicability: This program is likely to enhance my work... 1 / 2 / 3 / 4 / 5
10. Adequacy of the physical facility
- a. The facility was comfortable... 1 / 2 / 3 / 4 / 5
 - b. It was accessible... 1 / 2 / 3 / 4 / 5
 - c. There was adequate space... 1 / 2 / 3 / 4 / 5
 - d. Audio/visual support was helpful... 1 / 2 / 3 / 4 / 5
 - e. Other comments...

11. What was the most important or useful thing you learned from this program?

As a non-therapist I was interested to see, hear the teacher role. As a non-therapist I learned info to help in my teaching role to batterers of domestic violence.

Structures.

Safety.

The theory of holes in roles, the 3 tiers, the profound impact of engaging in this kind of treatment.

Everything.

How we all fall into roles and all have pushing towards filling them. It's universal. Pessu is great! Role of family history in individual life.

The use of other people in roles to fill out lacking "holes" in your own history and a collaboration that has a real effect, as I have witnessed.

The effect of trauma deprivation and inappropriate role to the development of the child.

12. If we were to do a similar program again, what would you suggest we do differently?
...Keep the same?

Keep the same

Small group is good.

I would have liked more formal lecturing.

Do this program at least annually as long as Al Pessa can come.

A longer program.

More or some handouts.

13. Additional comments, suggestions, or other program topics to consider.

Workshop was extremely exciting. Lecturer was great and extremely informative.

Amazing treat to have the source of these systems here in an intimate group setting.

Perfect! I can't imagine, given the time frame could be any more effective.

Good balance of didactic and experiential.

The "informal" setting was an advantage. It helped the learning to go on spontaneously and constantly. Excellent.
